Volunteer Agreement Form

I hereby agree to the following:

1. I will not use information I am exposed to through Truth Pharm for personal use. Such as contact information for any individuals, etc.
2. I will copy info@truthpharm.org on all email communications.
3. My email address is appropriate for professional use.
4. I will hold confidential any information I learn about persons in recovery, active in addiction, or a families.
5. I will have anything I send or post as a direct representation of Truth Pharm reviewed first.
6. I will not fundraise without direction from Truth Pharm with procedures in place.
7. When I present my story, I will present it as my story, not as the standard or rule for all others. For example, you may have had to have your child arrested which led them to sobriety, but that is not always the required path for everyone. Or, you may have had a substance use disorder and woke up one day and decided to change and you may have successfully done that without help from anyone, but it doesn't mean anyone can do it that way. We want to say, 'this was my experience' but we know it's not the same for everyone.
8. If I have an issue with Truth Pharm, the ideology, organization or endeavors, I will discuss it directly with the directors.
9. Sometimes we will agree to disagree. Sometimes we will decide to part ways, but we should always remember, we all want the same end result, so we should do it in peace and with love and support of each other.
10. I understand pictures of myself or my art work may be taken at events which I attend. I hold Truth Pharm harmless and release all rights to photos taken of me and work that I do at Truth Pharm events.
11. I agree that if I am an active user, I will not carry illicit substances or paraphernalia to Truth Pharm meetings or events, nor will I engage in conversations that promote the use of substances, nor will I solicit, offer or engage in use with other members of Truth Pharm or attendees of meetings or events. I also agree not to attend meetings or events under the influence.
